Dr. Willy Staubli
CIBA-GEIGY Limited
CH-4002, Basel
Suiza

Dear Dr. Staubli:

The beautiful Philips 300 Electron Microscope donated by CIBA-GEIGY to our University has just been installed. This has been an invaluable contribution to our research teams, and I want you to know that in this University we are deeply grateful to you and to CIBA-GEIGY.

As I told you in a previous letter, our EM laboratory, which has worked uninterruptedly for a little over thirty years, was facing trouble with its equipment. Thanks to you, the training in E.M. of our Ph. D. students and the work of several teams concerned with various cytological and biochemical subjects, has received a substantial support for future work, which faced an uncertain future because of instrument shortcomings.

I was very much impressed the day of the inauguration with the quality of the image and the ease of handling. I thanked for the University the local representatives of CIBA-GEIGY, but it is a pleasant duty to write to you to tell you how much we appreciate what you have done for us.

Yours truly,

Juan D. Vial C.
Rector
