Berlin-Dahlem, den February 10th 1927
Gosslerstrasse 20.

My dear Mr. Porter,

Many thanks for the diplome, your reprint and your friendly lines. Please hand over also to the Chilean Academy of Nat.Hist. my best thanks for the diplome. I shall bring in the Entomologische Mitteilungen a notice of your pamphlets. Perhaps it might come in even in the currant No. 2 of the Entomologische Mitteilungen 1927, if there is (at the end) still a little place (the Numero is 9/10 printed!): But I don't know yet, at what page I have to finish it. If it is not possible for No. 2, it will come out in No. 3.

I am looking forwards to send you a short note on some neotropical Cicindelides. For the moment I have not a real object for it, as I like to bring some new species etc. But I aspect something from Ecuador. I shall not forget you and your journal.

Yours ever

Walter Horn
