WHAT...

CCC is a centralized photocopy authorization service. The not-for-profit CCC was established by photocopy-users, authors, and publishers at the suggestion of the U.S. Congress that a mechanism be created to facilitate compliance with the copyright law.

WHEN...

Once you are registered with CCC, you have immediate authorization to copy from over 1,500,000 domestic and foreign publications. The publications include books, magazines, newsletters and journals. They cover fields from medical, scientific, trade, business, educational and computer related areas.

HOW...

CCC provides you with a Catalog of Publisher Information (COPI), which lists registered titles and their copying fees.

You may report your photocopy activity by a log sheet. The following data elements would be required on your log: standard number, year of publication, number of pages copied, and number of copies made. You may choose to report via an electronic method. Specifications are provided upon request.

There is a one time registration fee of \$30 and a \$75 annual membership fee which will include the cost of two COPI's.

WHY...

The copyright law makes provisions for copying where no permission is required under limited "fair use" conditions described in Section 107. Certain libraries are also granted no-fee copying rights under the special conditions described in Section 108. However, the need to obtain authorizations arise frequently when copies are used for meetings, presentations, clients, workshops, and classroom uses, or when provided through interlibrary loan.

CCC eliminates the repeated need to seek permission to photocopy from individual publishers which can be a time consuming and costly process. CCC distributes royalty fees to the appropriate publishers for you.

WHERE...

CCC is the only service of its kind in the U.S. Where else can you obtain permissions to photocopy from thousands of copyright owners through one single source?

CCC's Transactional Reporting Service is used by document suppliers, academic institutions, government agencies, individuals and corporations.
