## COPI ON MAGNETIC MEDIA

*The Catalog of Publisher Information, COPI*, contains two files which are available on the following types of magnetic media:

- 9 track tape formatted at 1600 BPI.
- TK70 Cartridge in VMS copy format for DEC systems.
- Mountain Computer Backup Tape 150 mg for PC users that supports the QIC-40 or QIC-80 standard.
- Everex 150/250 mg Streaming Tape Backup.
- 4mm Tape Backup.

The first file contains photocopy fee information listed by title.

The second file contains photocopy fee information listed by publisher. The publishers in this file have registered all their works in a given classification (books, journals, newsletters). It includes publishers entered into CCC's service through bilateral agreements with RRO's in other countries.

All records are 500 bytes in length and are space filled where there are less than nine year-fee combinations.

10-May-93
