Dr.
Randy Moore
Associate Professor of Biology
Baylor University
Waco, Texas
UNITED STATES

Dear Dr. Moore :

I was very pleased to receive your letter of August 5th, and to hear that your course on Advanced Plant Anatomy had been very successful. As a long time professor in our Faculty of Biological Sciences, I am of course aware of the high standards of Gloria Montenegro's work, but it is very stimulating to find that they are so highly valued by a distinguished visitor. I take the opportunity to thank you for your cooperation to our scientific endeavour.

Yours truly,

JUAN DE DIOS VIAL CORREA
Rector
