Dear Mr. Provenzano :

Dr. Arturo Yudelevic has informed me of the important donation of equipment to our University which has been secured through your generous help.

It is a pleasure to express the deep appreciation of our University, for your understanding, which will be effective in helping us at a very difficult point of our institutional life. Several research and advanced training programs will benefit directly from your effort. Thank you very much.

Yours truly,

JUAN DE DIOS VIAL CORREA
