Dear Dr. Brown:

Many thanks for your kind letter dated April 28th, where you inform us on the approval by the Kellog Foundation of a grant to the Catholic University of Chile to fund the proposed project "A Cooperative Extension Program in Farm Management for Small Producers in a Developing Market Economy". This project, to be coordinated by our Department of Agricultural Economics, will greatly enhance the projection of the University to the chilean agricultural sector, and specially to the segment of small farmers, which should benefit from it.

I hereby confirm my agreement with your commitment letter and with the conditions stated in it. I understand you agreed with anticipating the beginning of the project to June 1 (rather than September 1st, 1986) given that the University is ready to start with its commitments.

We will of course publicize the grant through chilean newspapers and professional journals, as well as inform and send the release to the United States Embassy in Chile. We will also send you copy of it as well as clippings of news related to our release about the grant made by W. K. Kellog Foundation.

Finally, I would like to inform you that the funds provided by the Kellog Foundation will be deposited in the account N° 36996989 of the City Bank, New York to be used exclusively for the purposes specified in the budget you have approved.

Thanking you once again for your cooperation I remain

Sincerely yours,

JUAN DE DIOS VIAL CORREA
