Dear Dr. Beltrán :

I acknowledge receipt of your letter dated July 29, 1986 in which you inform us of the approval by the W.K. Kellogg Foundation of a US\$ 31.461 group fellowship grant to our University.

This important contribution will enable eight nurses from our Faculty of Medicine to attend a self-care course in Maracaibo and visit Kellogg-assisted primary care projects in Colombia and Mexico and to visit selected projects in the United States for one of them. Besides, will permit six Latin American health professionals to attend the second workshop on Health Self-Care Education that will be held in Santiago, on October 1986.

I would be very grateful if you could transmit our gratitude for this important help to our University.

Sincerely yours ;

JUAN DE DIOS VIAL, M.D.
