Santiago, Octubre 28 de 1986  
R-485-86.

Santiago, Octubre 28 de 1986

R-483/86

Sr. Roberto Figueroa  
Gerente General  
American Express Bank  
Agustinas 1360.

Señor  
Ministro Director de la  
Oficina de Planificación Nacional  
Brigadier General  
don Francisco Ramírez  
Presente Figueroa:

Estimado señor Ministro: am writing to you, a distinguished  
alumnus of our School of Economics, to request your support  
and the support of American Express Bank in the development  
of the project of the School of Administration. Through the  
generous support of the American Express Bank, we have organized  
a Special Program of Postgraduate Studies in Business Administration,  
which is being celebrated in the School of Administration of the  
Pontificia Universidad Católica de Chile. The program is  
being organized through the support of the American Express Bank  
and the School of Administration of the Pontificia Universidad  
Católica de Chile. The program is being organized through the  
support of the American Express Bank and the School of Administration  
of the Pontificia Universidad Católica de Chile.

La Pontificia Universidad Católica de Chile otorga su patrocinio oficial a la postulación  
del profesor Ibáñez, en atención a sus méritos académicos y  
al interés que reviste su perfeccionamiento para nuestra Es-  
cuela de Administración. Durante su ausencia se le mantendrá  
el cargo al cual deberá reincorporarse al término de sus  
estudios.

This is a cause for major concern since  
the progress of science and technology creates the need to  
invest in new facilities and equipment. For this  
reason we have decided to appeal to the generosity of the  
private sector, confident that they will understand the vital  
need to maintain the quality of University education in our  
country.

JUAN DE DIOS VIAL CORREA  
RECTOR

One of the projects sponsored by the  
Development Plan is the creation of a Center for Medical  
Research in the School of Medicine. We are very proud of the  
accomplishments of our Medical School and we have made this  
project one of our priorities. The creation of the Center will  
provide an adequate environment for our clinical investigators  
and for the training of our junior faculty. The realities of
