Dear Ms. Wechsler:

With great satisfaction I have received your letter communicating the approval of Pontificia Universidad Católica de Chile as an EDUCOM member. I am sure that our interaction with other EDUCOM members, as well as your conferences and seminars will be of great help for our technological initiatives.

Besides, during the next weeks our university should be submitting an application to BITNET, which will provide us the means for a fluent communication through our faculty members and staff.

Enclosed you will find some brochures that will help you know more about this University, which is now living its 100th year.

Sincerely,

Juan de Dios Vial C.
Rector
