Dear Ms. Bartholomew :

Thank you for your letter dated June 7th in which you inform me that the request for a supplemental payment of US \$27,850 to the Subproject II of the Integrated Health Project has been granted by Kellogg Foundation. This additional grant will permit six health professionals from the Health Selfcare Education Project to attend the XIII World Health Education Conference in Houston and visit three U.S. health education programs during August 26 and September 15, 1988.

I am sure that this fellowship will be a very significant professional and personal experience for each one of the participants.

On behalf of the Catholic University of Chile I would like to thank Kellogg Foundation for the important collaboration our University has been receiving during the last several years as well as for this additional grant that will promote multidisciplinary and inter institutional networking in the area of selfcare education.

Sincerely yours.
