R.P.
Timothy S. Healy, S.J.
President
Georgetown University
UNITED STATES

Dear Father Healy :

It was a pleasure to receive the visit of Dr. John Queenan, who brought your kind letter to me. Please forgive the delay in answering due to my absence from Chile during the month of February.

As you say it is particularly appropriate that we are working together in research on natural family planning. We are being challenged by so many scientific and technical advances concerning the generation of human life, that catholic institutions of learning should devote much effort to further that knowledge and to put it a proper anthropological and moral perspective.

Yours truly.

JUAN DE DIOS VIAL CORREA
Rector
